ABOUT EXTENSIONS

If you are curious about extensions you came to the right place. If you are not able to achieve the thickness or length you have always wanted extensions can be your solution. The struggle with thin, lifeless hair, that doesn't seem to grow past a certain point is a common issue. Sacrificing your style because of it is not ideal. Let's talk about how we can fix that.

OUR PLAN

Chosing which method of extensions is a important step in ensuring that you will love your extensions and that you get the most value out of the service.

02 *Consultation*

The Consultation and Color Matching will give you and me all the tools we need to give you a seamless and perfect blend

03 *Maintenance*

I will teach you how to care for your extensions in between visits and recommend the best products to use to keep your extensions looking amazing.

METHOD

Keratin Fusion

Keratin Fusion is done with small pieces of polymer bonded to your hair individually in very small pieces. It is the most natural and long lasting extension method there is. Last 4-6 months.

*Uses both Great Lengths and Bellami.

METHOD

Hidden Beaded Rows are Hand tied weft hair that is secured to the hair with a row of Beads and stitching. HBR can offer a large amount of hair in a small amount of time. Move ups are needing every 8-10 weeks. Hair can last up to 10 months.

The Decision

Coming in for a color matching consultation I will go over length and color as well as how much hair you will need. Here are some photos of the two method's interior to help you make your decision. Both methods are very manageable and invisible when worn down or in a ponytail. I always use the best quality human hair that is ethically sourced.
